AI Analysis

> *• The only activity is a small, single-author change labeled as a bug fix. • No review activity (approvals, change requests, comments) indicates a low-engagement or early-stage review process. • The repository's current culture appears to rely on the author to self-merge or await reviewer assignment.*

Pull Request Details

PR #1 — Update settings.gradle

> 💡 *• Updates settings.gradle by adding one line and removing one line, likely a minor configuration tweak. • Authored by Janiyamt; no reviewers, approvals, or change requests yet, and the PR remains open and unmerged.*
